REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art fails to teach, disclose, or suggest, either alone or in combination, a ferroelectric thin film constructed of at least three layers including a lowermost layer, an uppermost layer and an intermediate layer located between the lowermost layer and the uppermost layer, so that said intermediate layer does not directly contact either said lower electrode or said upper electrode, the at least three layers being formed from crystal grains having a uniform size within each layer; and wherein:

the lowermost layer is formed of uniform minute crystal grains having a crystalline nucleus density higher than those of the intermediate and uppermost layers;

the uppermost layer is formed of uniform minute crystal grains having a crystalline nucleus density higher than those of the intermediate and lowermost layers; or

the uppermost layer and the lowermost are formed of uniform minute crystal grains having a crystalline nucleus density higher than the intermediate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
